ADITYA DHANRAJ PATIL

B.Tech ENTC • First Year

P O R T F O L I O

Electronics & Telecommunication Engineering

🏫 College: MITAOE

📍 Location: Maharashtra, India

🚁 Club: Drone Club MITAoE

Goal: Combine programming, electronics & AI to create innovative solutions.

SKILLS & CERTIFICATIONS

Technical Skills

Python Programming

60%

GitHub (Version Control)

55%

Basic Electronics & Circuits

70%

AI Tools (ChatGPT, Claude AI)

65%

Certifications

✅ Cisco Python Course

✅ Nasscom Course

Communication Skills

🎤 Public Speaking

📊 Presentation Skills

✍️ Formal Writing

PROJECTS

01

Laser Sensing Alert System

Laser-based safety alert for metro station yellow lines. Detects crossing and triggers an immediate warning to protect passengers.

Laser Sensor | Safety System | IoT

02

Automatic Water Pump System

Smart system that monitors water tank levels and automatically controls the pump to maintain optimal water levels.

Automation | Sensors | Embedded

03

Smart Health Monitoring

Real-time monitoring of heart rate and body temperature using sensors, enabling continuous health tracking.

Health Tech | Real-time | Sensors

ACHIEVEMENTS, GOALS & CONTACT

Achievements

🏅 Speech: "AI in Action: Smart Campus for Smarter Students"

🏅 Active learner in AI and emerging technology

Future Goals

→ Improve core ENTC knowledge

→ Build more real-world projects

→ Work on real-world problems

♟ Interests

♟ Chess

🤖 Technology & AI
